

THE SEEDLING

JANUARY 2026

PRESIDENTS LETTER

I hope you all had a wonderful holiday season enjoying the company of good friends, wonderful family visits, excellent food, participating in your holiday traditions, attending holiday events and surviving all the hustle and bustle. I experienced a white Christmas for the first time in decades. My brother, sister-in-law, and niece moved from Temecula to Cooperstown, NY. I arrived on Christmas Eve and it immediately began to snow and by the next morning, we had 12 inches! Alas it continued to snow every day which really curtailed our travel (alas no NYC sightseeing).

Not only was your December full but so was the calendar of Bonita Valley Garden Club. We enjoyed decorating our tree for December nights and enjoyed a great lunch together afterwards at The Prado; thank you Irwin Pellerin and Leslie Schroeder for organizing it. We loved seeing the light show, the hotel shops, the skating rink and the tree at the Hotel Del Coronado, followed by a delightful Mexican dinner which had all been arranged for us by Angela Jones. We are indebted to Carmen Sandoval Fernandez for arranged our Holiday Party along with fun games that had wonderful tiny evergreen trees as prizes. She also provided beautiful table decor and giving everyone glasses or head gear. Thank you to Cindy Winters who provided an opportunity for us to give to others. We have an equally busy and rewarding January schedule, so I hope to see all of you there.

I hope the new year brings everyone health, wealth, happiness, a chance to participate in new experiences, the opportunity to make a difference, and the ability to attend BVGC meetings to learn new things and visit with your friends.
Happy 2026 everyone!
Lynne

PLANT SALE PREPARATION

BVGC Plant Sale will be held on May 9 2026. There is still time to start propagating for the plant sale. Take cuttings of succulents by mid February so that they will be well rooted in time for the sale. We cannot sell plants that do not have a good root system. If you have ferns that you can divide, this is a good time to start preparing them, these are popular plants. Also if you are good at growing Orchids, these are also very popular. Please start preparing planters of succulents, herbs or houseplants, and maybe create unique pots, and decorations to present your plants.
